

## ANOTHER NIGHT ATTACK OCCURS

Clash With Rebels at San Fernando.

THE DEMONSTRATION WAS A SMALL AFFAIR.

Filipinos Who Assail the Lines of the Seventeenth Infantry Were Quickly Repulsed With Heavy Losses—Constantly Cutting Wires in an Attempt to Isolate the American Troops in the North—Civic Government to Be Established at Las Pinas. Recently Captured—Lawton, Denby and Worcester Now There.

Manila, July 1.—[Special]—Another night attack occurred at San Fernando but the demonstration was a small affair. The Filipinos attacked the lines of the Seventeenth Infantry, but were repulsed with a heavy loss. The Americans had one killed and three wounded. Gen. MacArthur is confident he can repel any attack the Filipinos may make. The Filipinos are constantly cutting the wires in the attempt to isolate the American troops in the north.

To Establish Civic Government. Manila, July 1.—[Special]—Civic government will be established at Las Pinas, recently captured from the Filipinos. Gen. Lawton, Col. Denby and Prof. Worcester are now at Las Pinas with that end in view.

Washington, July 1.—After conferring with Secretary Alger and Adj. Gen. Corbin, as well as the other members of the cabinet Friday, President McKinley finally decided upon the number of regiments that would be organized at present to reinforce Gen. Otis. An order being prepared at the war department provides for the organization of nine regiments, exclusive of three which are being formed in the Philippines under the direction of Gen. Otis. This, however, is perhaps merely the first installment. It is possible that as many more will be organized as soon as these are ready for service. The nine regiments which are to be organized immediately will consist of twelve companies of 112 men each. In addition to these, there will be thirty-four non-commissioned staff and band officers, making a grand regimental total of 1,378 men. Thus the whole number of men to be recruited for these regiments will be 12,402. It is estimated that with enlarged facilities for recruiting by establishing twice as many stations as are now in existence it will require nearly a month to fully organize and equip the nine regiments for which provision is being made.

The matter of transporting the regiments to the Philippines after they are once organized seems to be the most perplexing question. Major Long, chief quartermaster at San Francisco, telegraphed Col. Bird that it was absolutely impossible to charter any more vessels for the government. The department has no vessels on hand at San Francisco now and will have none there for some time to come. In the Presidio of San Francisco, awaiting transportation to the Philippines, is the Nineteenth United States Infantry, recently returned from Porto Rico, and about 2,500 recruits—a total of about 4,000 men. It will require about four ordinary vessels to accommodate this force. The first four steamers to arrive at San Francisco with volunteers from the Philippines will naturally be pressed into service. Gen. Corbin has prepared a statement showing that in the last week nearly 3,500 men have been embarked at San Francisco, including the load carried by the transport Pennsylvania. Friday, consisting of two companies of the Twenty-fifth Infantry and twenty-five recruits, there have been transported this week 3,444 enlisted men and fifty-nine officers.

COLLISION APPEARS IMMINENT.

Insurgents Strengthen Works Around the Town of San Fernando. Manila, July 1.—A collision between the two armies at San Fernando seems inevitable soon. The insurgents are active all around the town and can be seen working in the trenches to strengthen their position. Day and night forces are at work. It is estimated that 3,000 men were seen marching in the road north of the town yesterday morning. The Americans turned out and manned the defenses, expecting an attack. The soldiers sleep in their clothes and breakfast at 4 o'clock in the morning, so as to be ready for a daybreak assault.

The commission of three Spanish officers who entered the insurgent lines yesterday to make a signal attempt to arrange for the release of the Spanish prisoners have not returned. Their absence has occasioned some delay.

members of the cabinet, speaking in connection with the campaign in the Philippines, said: "The president has given Gen. Otis to understand that he is to have all the men necessary in the conduct of the operations against the insurgents. Gen. Otis has been told this in so many words, the president having said to him in effect that if he (Otis) did not have enough men it was his own fault."

Sick List Is Large. St. Paul, Minn., July 3.—Gov. Lind has received from Lieut. Col. Friedrich at Manila a cablegram stating that the effective strength of the Thirtieth regiment, Minnesota volunteers, was now 940. Of the total membership 150 men were sick, but not seriously. There is no definite information about its return.

Farms and Railways Under Water, Causing Losses of Millions. Houston, Texas July 1.—The remarkably heavy rains of the past four days in Texas have done damage which will amount to millions of dollars. Every stream in this section of the state is above high-water mark and the angry waters have destroyed thousands of acres of cotton, corn and cane, besides houses and cattle.

"At Calvert the rise was so sudden that when the water went through the town several negroes were drowned, and five bodies have been recovered. It is rumored that many farmers, white and colored, living in the Brazos bottoms have been drowned, but neither names nor reliable particulars are yet obtainable. The coroner held an inquest and warrants were issued for six men. I arrested three men and they were taken away from me by a mob who cut the horses loose from my carriage. Five hundred shots were exchanged between the union and the non-union miners. 'The town is greatly excited. A ball in the northern part was burned. I am powerless to quell the riot. Send guns and two hundred troops at once.'"

Gov. Warden sent the following reply: "I will send you immediately one hundred and fifty guns and ammunition. Summon a posse of good men at once and do everything in your power to quell the riot and enforce the law and protect life and property."

Gov. Warden said he would not charter troops until the sheriff had exhausted his resources. Situation Is Serious. Cartersville, Ill., July 1.—[Special]—The situation at the Brushy mine continues to be very serious. A fresh outbreak of hostilities is expected at any moment and forces of union men are being augmented steadily by the arrival of armed sympathizers from the surrounding towns.

The sheriff is obeying the order of Governor Warden in collecting a posse of one hundred and fifty men. Late last night imported negroes in retaliation for the attack made upon them, set fire to a small collection of shanties owned by union men one mile from the town for the use of rejected union miners. Every one of the buildings were reduced to ashes.

A battle ensued in which over a hundred shots were exchanged but as far as known no one was injured. At day break the firing was resumed. It is reported that several non-union men were slightly wounded but the strikers suffered no losses.

## CAPT. DREYFUS NOW AT RENNES

Occupies Comfortable Prison Quarters.

SCENE WAS ONE NEVER TO BE FORGOTTEN.

Arrival at the Military Quarters Was Most Dramatic—Transfer From the Preceding Quiet to the Clank and Rush Was Startling—Great Crowds Gathered at Midnight—It Is Stated That the Prisoner's Health Is Precarious—To Avoid Any Possible Chance of Poisoning Food, Wife Prepares Meals.

Rennes, July 1.—[Special]—Captain Dreyfus reached Rennes shortly before six o'clock this morning. His arrival at the military prison was most dramatic. A great crowd had gathered at the prison at midnight, and the people were beginning to grow impatient and the crowd gradually dwindled until only a score remained. Suddenly about six of a company of mounted gendarmes appeared, riding at a furious gallop, shouting and clanking their sabres, and making a racket like a fire engine. The onlookers hurried to the prison entrance, when a force of two hundred men armed with carbines, who had been concealed within, deployed fan-like on either side of the entrance and received a cavalcade, closely followed by a landau.

The transfer from the preceding quiet to the clank and rush of military was startling. The landau entered the prison and the fan of men collapsed and fell in behind it and again all was quiet.

The scene as the cavalcade and the landau dashed into the prison is one never to be forgotten. For a moment your correspondent saw a baggard and startled face as the landau dashed by. The face was that of Capt. Dreyfus.

## Wife Prepares His Meals

Rennes, July 1.—[Special]—It is stated on the best of authority that the prisoner's health is precarious. He will be examined by an army surgeon today. Mme. Dreyfus will prepare all of her husband's meals herself. The chief object in her doing so is to guard against any chance of poisoning the prisoner's food.

Dreyfus' cell is really a comfortable one, though iron-bound and without windows. From the time of landing until the prison was reached, Dreyfus did not speak a word. At Quiberon, where the train was taken the officer refused to permit Dreyfus to leave on the ground that he had just come from the colonies.

This matter, however, was quickly adjusted and the train proceeded. Dreyfus personally opened the door of his compartment and appeared quite self possessed.

AMATEURS PLAYED  
PROFESSIONAL BALLTWO IMPORTANT EVENTS OF  
YESTERDAY AFTERNOON.

One of the Best Games Ever Witnessed in Janesville—Jefferson Shut Out By Score 1 to 0—Annual Picnic of Baptists a Great Success—Large Crowd.

Everybody got their money's worth at the ball game yesterday between the Jefferson and Y. M. C. A. clubs. Some one must secreted the latter's bottle of chloroform, as the players exhibited more signs of life than in all previous games combined, and as the infection spread to the audience there was a hot time all around.

The Y. M. C. A. nine opened the game by scoring one in the first inning, and while it was comparatively easy for the Jeffersons to hold them down to that score during the balance of the game, it seemed an utter impossibility for any of their players to arrive at the registering place, three of them dying while reaching for the home plate and one perishing at third base.

There was considerable fault finding with the umpire by the Jefferson players and many of the spectators. His judgment on balls and strikes was very bad, but his errors were equally distributed, and his decisions on bases, if anything favored the Jefferson club. The latter made a strong kick when one of their men was called out at second. It was a close decision but no more so than the one in which Allen, of the locals, was similarly treated on the same base.

Brown, of the locals, threw a batter out at first on a fair ball that the umpire called foul, and one of the Jefferson batters was sent to first, and a base runner advanced from first to second on an alleged ball by pitcher that never occurred. So the least said the better about the umpire favoring the Y. M. C. A. nine.

## Notes of the Game.

Allen of the locals, gave as pretty an exhibition of second base play as has ever been seen on the diamond. His stop of a swift ball and throw to first, lying on the ground, putting out a player who would ordinarily have been credited with a base hit, elicited well deserved applause.

The Jefferson's first baseman also robbed one of the locals of a base hit by making a phenomenal stop and recovering in time to beat the batter to first.

Fisher, not to be outdone, made a great stop in right field, and came very close to nipping the batter at first.

Roy Palmer, pitcher of the high school nine, made a good running catch of a fly ball, that the short stop should have gone after, and also made a beautiful throw from the outfield to the home plate cutting off a run.

Mills, the cool headed veteran catcher, admitted after the game that his club did not get any the worst of the umpiring, but thought it just as well to have a competent man in the position.

The game was just as good as the score indicates.

## Baptists Annual Outing

The Baptists had their annual outing at Crystal Springs park yesterday and the affair proved a great success, and a delightful day was the verdict of each.

"The Mill Cannot Grind  
with Water That's Past."

This is what a fagged out, tearful little woman said in telling her cares and weaknesses. Her friend encouraged by telling of a relative who had just such troubles and was cured by Hood's Sarsaparilla.

The little woman now has tears of joy, for she took Hood's, which put her blood in prime order, and she lives on the strength of the present instead of worrying about that of the past.

Neuralgia—"I had dreadful neuralgia, miserable for months. Neighbors told me to use Hood's Sarsaparilla, and I cured myself." Mrs. Mary Tucker, Barre, Vt.

Erysipelas—"My little girl is now fat and healthy on account of Hood's Sarsaparilla curing her of erysipelas and eczema." Mrs. H. O. Winkham, Port Chester, N. Y.

LOUNGING GOWN OF TURKISH COTTON CLOTH FROM HARPER'S BAZAR

The original robe was of beige Turkish toweling. The front is made to hang loosely from the figure, and is shaped to the waist by a loose girdle of twisted silk tasseled at the ends. The wide revers of the upper body are cut in one piece with the fronts that join the deep collar at the shoulder seams, and are finished with an inch one half ruffle of white wash ribbon. A similar ruffle continues down the front to the hem. The sleeves have not a particle of superfluous fulness at the armhole or over the upper arm; but a flare occurs just below the elbow that yields a freedom to the lower arm and allows for a deep turned back facing of silk. A plain princess

back, with centre and side back seams, fits the garment to the form, and a Watteau pleat joins the neck-band and spreads into part of the skirt fullness below. The pattern published by Harper's Bazar where the design originally appeared, allows for a six inch train. The garment should be finished at the lower edge by a deep facing or hem. The chemise and collar pattern are not included with that of the robe.

Of Turkish toweling, or any fabric of the same width, viz., 27 inches, this garment will require 9 yards to make as illustrated; also one bolt of wash ribbon and one-half yard of wash silk for sleeve facings.

and all who attended. Not only did the Sunday school children attend, but many grown up people as well. The day was perfect, the crowd enormous and on every trip the steamer Columbia was fairly crowded. It is estimated that nearly half a thousand people were there.

At 1 o'clock an inviting dinner was served under the direction of the Ladies' Aid society and the Helpful Circle, and the King's Daughters dispensed ice cream.

The program of sports at 3 o'clock resulted as follows:

Girls' Fast Walk—Sadie Bates.  
Girls' Potato Race—Ruth Paul.  
Boys' Three-Legged Race—Lloyd Davis and Roy Lighthizer.  
Egg Race—Davey Cox.  
Boys' 100 Yard Race—George Berrell.

Girls' Three-Legged Race—Sadie Bates and Bertha Yates.

One of the features of the day was the four inning ball game between a nine made up from Miss Morris' class and a team from Mrs. E. F. Dunwiddie's class. Edson Baker was the captain of the team from Miss Morris' class, and Arthur Anderson captained the nine from Mrs. Dunwiddie's class. The honors of the game fell to the last mentioned, the score being 10 to 2.

C. E. Bowles, being very generous, presented a prize to the winning team, which was a sack bearing the words, "\$200 in gold," but on opening it Captain Anderson found only cobble stones. Fred Groves umpired, and Wilson Lane kept the score. The line up was as follows:

ANDERSON	Position	BAKER
Balderson	c.....	Baker
Anderson	p.....	Hutchinson
Kirkland	s.....	Harrington

The ladies were to play a game of ball and in fact did some lively practice work in the morning, but their courage failed them, at the last moment.

After supper the affair came to an end, and all returned home well pleased with the day's outing.

Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Bush, clerk of Hotel Dorrance, Providence, R. I. He says: "For several years I have been a constant sufferer from diarrhoea, the frequent attacks completely prostrating me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I would fortify myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by People's Drug Co., corner Main and Milwaukee streets.

## THIS DAY IN HISTORY.

1582—James Orlin, the famous scholar and gentleman (The Admirable), was assassinated at Mantua, Italy, aged 22.  
1725—The Comte de Rochambeau (Rochambeau), French general in America, born: died 1787. In 1780 Rochambeau reached America with 6,000 French allies for the Revolutionary army. The column landed in Rhode Island and by the skill of its leader defeated the British plans by the maneuver. At Yorktown the valiant Frenchman led a decisive assault.  
1862—Battle of Malvern Hill; bloody repulse of the Confederates.  
1863—Battle of Gettysburg begun.  
1863—Rousing reunion of the veterans of the armies of Lee and Meade on the field of Gettysburg to celebrate the twenty-fifth anniversary of the battle.  
1892—The great looking out of 3,000 men at Homestead, Pa., began.  
1896—Daniel De Foe, a lineal descendant of the great author, died in San Francisco.  
1898—Attack on Santiago by General Shafter's corps; battles at El Caney and San Juan Hill.

## GEN. OTIS' RECORD.

The commander of General Elwell S. Otis, the critic of the American army in the Philippines, should take the trouble to look up his record before they charge him with incompetency, and call for his retirement. Facts are stubborn things, and General Otis is plenty of them on his side. The Official Army Register gives his record as follows:

Elwell S. Otis, brigadier general. Born in Maryland; appointed from New York. Service in volunteer army:

Captain, 140 N. Y. Infantry, Sept. 13, 1862.  
Lieut. Colonel Dec. 23, 1863.  
Honorable mustered out Jan. 24, 1865.  
Brevet Brigadier General March 13, 1865.  
Service in regular army:  
Lieut. Colonel, Twenty-Second Infantry, July 18, 64.  
Colonel, Twenty-Second Infantry, Feb. 8, 1880.  
Brigadier General Nov. 28, 1883.  
Brigadier general outranking him:  
A. W. Greely, signal corps; John R. Brooke, general officer; J. C. Breckenridge, inspector general; D. W. Flagler, ordnance department; Frank Whetton, general officer; G. N. Sternberg, surgeon general; G. D. Engle, adjutant general's department.

General Otis ranked eighth in the list of sixteen brigadier generals, and was out-ranked by but two general officers—Gen. John R. Brooke, and General Frank Wheaton.

General Otis won three brevets during the civil war, as follows:

Brevet commission March 2, 1865—For gallant and meritorious services in the battle of Spotsylvania, Virginia.  
Brevet commission March 13, 1865—In recognition of second act of bravery in same battle.  
Brevet commission March 13, 1865—For gallant and meritorious services in the battle of Chapin House, Virginia.

When the Spanish war broke out, General Brooke, General Wheaton and General Otis were made major generals of volunteers. The records of the war department show that General Otis is a brave and capable officer. His campaign in the Philippines cannot well be criticized by civilians, and much less by civilians who never saw the Philippines. General Otis made a splendid record during the civil war, and according to all accounts, he is doing equally good work now.

The officers for the ten regiments to be enlisted for Philippine service will be appointed by the president, and men who have seen service and made good records in the late war, will have the preference. The desire is to get the best men possible to command, and every care will be taken to attain that end. Trained and efficient men only are wanted. The particular feature which the war department wishes to avoid is the enlistment of organizations and the granting of commissions on the mere ability to enlist men, which does not always imply ability to command. It is the desire and the expectation to secure all the volunteers required by individual enlistment, and then commission the officers on their records as soldiers and officers in actual service.

Theodore Roosevelt has declared himself in favor of the renomination of President McKinley, saying: "I feel that both the extreme rapidity with which the country has gone up the path of prosperity under President McKinley's administration and the conduct of the war in the Philippines make it the duty of every man to stand with and re-nominate President McKinley's renomination a necessity." Gov. Roosevelt has shown his sagacity in many ways and the sensible announcement that he will support President McKinley is simply another indication that he is a man of sound judgment and keen foresight. He has not allowed appearances to turn his head, and the American people will admire him all the more because of this fact.

Admiral Schley has written a friend a letter in which he says that he would not be a candidate for either president or vice president, and would refuse to qualify if elected to either office.

Milwaukee's carnival closed with last night's parade. It has been a great success and its enterprising managers are to be congratulated.

American army is doing great things in the Philippines.

remarkable condition. The work of sanitation is being continued. Every public building and the barracks will be again disinfected, and hopes are entertained that eventually the disease will be completely stamped out. There is not a case of smallpox in the city. The death rate is decreasing steadily, and there is no cause for alarm on the part of persons in the United States having relatives in the Cuban capital.

The "anti-imperialists" are becoming scarcer every day. The American people are slow to respond to the calls to array themselves against the government.

The melanolestes picipes is creating havoc with the countenances of Washington men. It is a bug that bites.

## ALBERT SCHALLER TO COMPETE

Will Make An Effort to Qualify on the Onwentsia Links.

Albert Schaller, of this city, is now in Chicago, a contestant for the championship of American golfdom.

Next week on the celebrated Onwentsia links, golf players from all parts of the country will compete for honors and if Mr. Schaller qualifies to enter the contest it will be an honor well worth obtaining.

Tents where the caddies will have their quarters have already been put up in the rear of the club house, and near by is a big marquee, where arrangements have been made to serve luncheon.

A large tent not far from the tent of the officers of the United States Golf association has been erected, where several telegraph instruments and telephones will be installed for the benefit of newsgatherers. Free conveyances will ply between the railway station and the grounds.

Rockford Man Wishes to Enter His Horseless Carriage in Races

He says he will make the trip overland here in quicker time than the average horse can cover it.

## TO COMPLETE W. N. G. HISTORY

Prominent Newspaper Men Are Here for That Purpose.

R. Macquoid and F. P. Duncan, of Milwaukee, are in the city for the purpose of gathering data for a record of the Wisconsin National Guard from its inception to the present day. The work will contain half tone pictures of all the commissioned officers and those of the boys who lost their lives while on duty.

The work is endorsed by Governor Scofield and Adjutant General Boardman, and is being undertaken by the Evening Wisconsin company.

Messrs. Macquoid and Duncan are newspaper men of experience and any information that can be rendered them will be appreciated. The work is being done by popular subscription, as the attempt for an appropriation at the recent session of the legislature failed.

Afraid of Mice.  
It seems queer that a great big elephant should be afraid of such a tiny creature as a mouse, but it is a fact. They tremble like a boy going to be whipped when one comes near them and cannot be quieted until long after it has gone away. It is said they are afraid the mice will eat them in their trunk which is a very

## FRACTURED HER LEFT ARM

Mrs. Ann Groat, while returning to her Cornelia street home last evening, accidentally fell on a sidewalk, fracturing her left arm.

The injured woman was assisted to her home and Dr. Q. O. Sutherland called.

The break is a bad one and will take some time to heal.

## Tooth-Pulling by Proxy.

The sultan of Turkey is most inquisitive as to what is said and written about him abroad. Every day translations are laid before him from the newspapers of the world, and these are all closely perused. His majesty is a bad hand at suffering. At one time he wanted to have an aching tooth removed and dared not. Eight slaves had molars drawn out in his presence that he might have an opportunity of judging the extent of suffering entailed, and finally the sultan decided that he would rather bear the pain than undergo such an ordeal.

## Capitol War Guards Are Still on Duty.

The extra guards who were hired during the late unpleasantness to prevent stray Spaniards from carrying off the capitol site have never been laid off. So the more stringent rules about looking through the grating at the money in the treasury building have not been relaxed. There might be another war with Spain some time, and there is nothing like taking precautions beforehand.

## Solace.

"There is great satisfaction," said the Cornfed Philosopher, "when you have to do something mean, in regarding it as a sacred duty."—Kansas City Journal.

"Oh, by the way, I hear that Minnie is engaged to a professor."

"You don't say! What kind, chiropractist, palmist or horseshoer?"

ISADORE COHEN  
BEHIND JAIL BARS

ACCUSED OF FIRING TALLMAN  
BUILDING.

While a Resident of This City He  
Was Burned Out While Running a  
Picture Sale Gallery on West Mil-  
waukee Street—Arrested in Milwan-  
kee—Denies the Charge.

Isadore Cohen, whose place of busi-  
ness here was burned a year ago, is oc-  
cupying a cell in the Rock county jail  
on the charge of arson.

At Milwaukee yesterday he was  
placed under arrest by the Cream City  
police and Sheriff Appleby was notified  
by telegraph, and left last evening for  
Milwaukee, and returned this morning  
with the accused and at once drove to  
the jail.

Cohen is a Jew, about twenty-eight  
years of age and is unmarried.  
In May, 1897, he arrived in Janes-  
ville and rented the store in the Tall-  
man block on West Milwaukee street,  
now occupied by the tailoring firm of  
McDaniels & Achterberg.

He opened a picture store and for a  
time did a thriving business. After oc-  
cupying this store for several weeks,  
business began to get dull and Cohen  
moved to the third floor in the same  
block.

While occupying these quarters he  
took out a fire insurance policy with  
Carter & Hazelton of this city, for \$300,  
in the Hamburg-Bremen company of  
Germany.

It is now alleged that the policy more  
than covered the value of the picture  
stock, but in spite of this fact Cohen  
went to Max Fleming of this city, and  
secured a \$400 policy on the same  
stock, which policy was in the Milwan-  
kee Mechanics company.

All went well with Cohen and his  
stock until 2 o'clock on the morning of  
May 28, 1897. Fire and smoke was then  
discovered coming from the windows  
on the third floor, and after several  
hours' hard work on the part of the fire  
department, the flames were extin-  
guished.

The fire badly damaged Cohen's stock,  
Dr. Palmer's dental parlors on the same  
floor and George Ellman's fruit and con-  
fectionery store on the ground floor.

Fire adjusters for the Hamburg-  
Bremen company were soon in the city  
and with them Cohen made a settlement,  
receiving in the neighborhood of \$300.

With the Milwaukee Mechanics com-  
pany a final settlement was not so easy.  
Their fire adjuster labored to find proof  
of incendiarism.

Cohen, it is alleged, suddenly left  
town on learning that the insurance  
companies suspected that all was not  
right and that his whereabouts became  
a mystery.

A warrant was then issued in this city  
by Judge Phelps for his arrest, and the  
same was placed in the hands of Officer  
Wallace Cochran to be served.

Officer Cochran made several trips to  
Chicago, Milwaukee, and points in Mich-  
igan, and although he was close on the  
track of the much wanted man, Cohen  
managed to elude him.

It is said that when Cohen purchased  
his pictures and frames of a certain  
Chicago firm he failed to make a satis-  
factory settlement with them. Follow-  
ing the fire, Cohen was obliged to write  
to this Chicago firm for the purpose of  
having them make out original bills of  
purchase so that he might show the  
same to the fire insurance adjusters  
when the time of settlement came. In  
these letters it is alleged that Cohen  
stated that he set fire to the building  
for the purpose of getting the insurance  
and further asking that the Chicago  
firm double the price on each and every  
article in their return bills.

The Chicago firm having failed to  
make a settlement with Cohen, sent the  
letters that Cohen wrote them to this  
city, addressing them to District Attor-  
ney Jackson, who, it is alleged, still has  
them in his possession.

Frank Hazelton, of the local fire in-  
surance firm of Carter & Hazelton, went  
to Milwaukee this week to attend the  
carnival, and while wandering through  
the crowded streets, accidentally met  
Cohen, whom he recognized at once.

Hazelton lost no time in following his  
man, until he came across an officer who  
placed Cohen under arrest, and he was  
conveyed to the Central station, and  
placed in a cell.

Cohen admits that he is the right  
man, but he denies having done any ul-  
lawful acts.

The prisoner will in all probability be  
tried on the charge of arson, but will  
first be made to answer to the charge of  
trying to defraud the insurance com-  
panies.

At the jail today Cohen refused to  
say anything regarding the case, but  
says he expects aid from Milwaukee  
friends.

BOARD OF HEALTH

DR. Q. O. SUTHERLAND TO VIS-  
IT NEW RICHMOND.

Sanitary Condition Of the Tornado Dis-  
trict Is Said To Need Looking After  
—Several People Have Neglected to  
Bury Dead Horses and Cattle—Will  
Take Some Time.

Dr. Q. O. Sutherland of this city,  
a member of the state board of health,  
will leave Sunday in company with other  
members of the board for New Rich-  
mond, to investigate the sanitary con-  
ditions of the tornado district.

Since the terrible tornado three hun-  
dred dead animals have been found in  
and about New Richmond and on ac-  
count of the lack of help, these bodies  
have been neglected and left unburied.  
The result is that the health of the pop-  
ulation there is in danger of disease.

The board will look after this matter  
as well as several others that need their  
immediate attention. Through the  
farming district cattle, pigs and sheep  
were killed by the score and in most  
cases their decaying bodies have since  
been exposed to the open air.

The board members will remedy this  
evil as soon as possible. It is also the  
intention to place better sewerage in the  
city. The work of the board at New  
Richmond will occupy some time.

## LATE NEWS BY TELEGRAPH.

## BURN MINERS' SETTLEMENT.

Negroes Cause the Destruction of Union City, Ill.

DONE TO AVENGE AN ATTACK.

Strikers Fire on Colored Workers Imported to Work in the Mines at Cartersville, Ill.—One Woman Killed and Twenty Men Hurt.

Cartersville, Ill., July 1.—Union City, a settlement built by the miners' union on land adjoining the Brush mines, was set on fire by the non-union negroes in retaliation for the murder of Mrs. Carr, the woman killed at Fredonia Friday morning by strikers. The town is a total loss.

Marion, Ill., July 1.—An attack upon negro miners, being imported to take the places of strikers at the Cartersville mines, when bullets flew thick and fast, was avenged by the victims of the deadly assault, when they set fire to Union City, a settlement of the striking miners. The flames spread to every part of the town, and it was almost entirely destroyed, leaving 100 families homeless.

Matters are assuming a serious attitude at the mines. The attack on the town Friday came near being a reproduction of the scenes at Virden. The absence of the armed guards on the train at Fredonia was all that prevented the riot being a duplicate of the Virden affair. The cause was the same, and the effects were different only in the number of killed.

One dead, Mrs. Carr, a negro, and twenty wounded is the result of the Fredonia riot. A coach load of negro miners, with their wives and children, was being transported from Pana to the Brush mine, near Cartersville, to take the places of striking miners at the latter place. Instead of bringing them from Carbondale to Cartersville by the direct route over the Paducah division of the Illinois Central, they were brought over the Johnson City branch. This road does not reach this mining town, but runs about two miles north of the place, and there is no station opposite the town. It was the intention of Superintendent Brush to bring these negroes to his mine by this line, stopping the train just north of his place and have them march across the country to their destination and thus avoid any conflict with the striking miners in the streets of Cartersville.

The strikers had been informed by someone and they were too quick for Supt. Brush's scheme to work out well. Early in the morning a mob of the strikers, numbering over 100, most of whom were reported to be portion of the negro miners whom Brush brought from the south last year to take the places of his striking white miners, had gathered. They were all well armed and after blood.

Shortly before 10 o'clock the train carrying the coach load of negroes pulled slowly into the station. The moment the train came to a halt the strikers, without any warning poured a volley into the car containing the negroes, killing one woman and wounding twenty other occupants. The coach was completely riddled with bullets. The negroes did not return fire because they were not armed.

The train pulled out as quickly as it could be got in motion and proceeded east to a point north of the Brush mines. When the negroes, their families and effects were unloaded, the men immediately marched across the country to the stockade around the mine without further molestation.

After the train left the Fredonia mine the rioters marched back to Cartersville. Soon after the arrival of the imported miners at the stockade the strikers, most of them well armed, began to assemble about the mine with the intention, it is said, of making another attack on the new arrival, but they were met by a large number of the negro miners who have remained out of the union and stood loyal to Supt. Brush.

Brush called on Sheriff Gray for protection and the mine is now under guard. No one is allowed to enter the stockade, and the names of the injured cannot be ascertained. Several of the strikers have been arrested. They will be jailed here.

A message from Fredonia says that three of the wounded men cannot recover.

STRIKE IS BEGUN AT HOMESTEAD.

Famous Battle of 1892 May Find a Repetition This Year.

Pittsburg, Pa., July 1.—A strike was inaugurated at the Homestead steel works Friday which may rival the battle between capital and labor, which

was fought on that famous spot seven years ago. The discharge of fifteen men at the plant during the last three weeks is at the bottom of the trouble. These men were dismissed because of their affiliation with the newly formed lodge of the Amalgamated association. The committee of nine men, who sought the reinstatement of the discharged men, were also discharged for the same reason. Superintendent Corey informed the men that no organized men would be retained, though it became necessary to close down the entire plant.

At a secret meeting of the men held on Thursday it was decided to stand by the organization and in the event of the discharge of any of the members all would strike.

When the nine men were discharged they were not permitted to return to the mill and the walk-out was not immediately carried out, but eventually one of the men gained access to the workmen, with the result (according to the president of the Amalgamated association at Homestead) that 2,000 men have quit and all departments are more or less crippled.

There are 4,000 men employed in the big works, and the company says that there are only about 250 or 300 of them who are skilled in the usual acceptance of that term.

STRIKE OF TIN-MILL WORKERS.

Fifty Thousand Workers Are Now in Enforced Idleness.

Pittsburg, Pa., July 1.—At the offices of the Amalgamated Association of Iron and Steel Workers this morning it was stated that, with four exceptions, all the tin mills of the country were closed. The suspension is the result of the failure of the representatives of the tinplate trust and the conference committee of the Amalgamated association to reach an agreement on the wage scale for the year. As a result of the shut-down at least 50,000 tin mill workmen and laborers are thrown out of employment for an indefinite period. The scale calls for an increase in wages of just 25 per cent, both in puddling and finishing mills, the puddling rate having been changed from \$4 a ton to \$5 a ton, and all other scales advanced in proportion.

The Republic Iron and Steel company and Lockhart & Co., at whose mills the trouble was looked for, signed the scales Friday. Zugue & Co. and the Keystone Rolling company signed the puddlers' scale. Secretary Jarrett of the Association of Iron and Steel Manufacturers, signed the sheet-iron scale for all the firms affiliated with the association.

Negro Miners Leave Pana.

Pana, Ill., July 1.—Beyond the destruction of the negroes there was little excitement in the city Friday. Over 200 negroes have left the city within the past forty-eight hours, going to Alabama, Virginia, Kansas, Indian Territory and Iowa. Almost all the white non-union miners have also departed. Perhaps a dozen foreign negroes remain in the city, but they will leave. The extra police have been discharged, and no further trouble is anticipated.

No Call for Troops.

Springfield, Ill., July 1.—At a late hour Friday night acting Gov. Walter Warder had received no call for troops from Cartersville, and, in fact, had not been officially advised of the trouble there.

## FINANCES OF THE NATION.

End of the Fiscal Year Reveals a Flattering Showing.

Washington, July 1.—Friday ended the governmental fiscal year. According to the treasury figures, which are subject to revision, the receipts have been \$514,116,911 and the expenditures \$504,644,972, thus making the deficit \$90,528,001, or about \$20,000,000 less than the early estimates of Secretary Gage. The receipts from customs were \$205,819,116 and from internal revenue \$271,773,369.

This is an increase over last year of \$55,840,353 in customs, and of \$103,293,051 in internal revenue, or legitimate increase in receipts of \$159,133,409. The miscellaneous receipts, however, are \$47,864,106 less than last year, as the bulk of the Pacific railroad payments came in then.

The expenditures are \$161,256,093 larger than the year before, or just about the amount of the increase in customs and internal revenues, thus accounting for the increase of \$50,000,000 in round numbers in the deficit. This increase in the deficit, therefore, is less than a third of the increased expenditures growing directly out of the war, and the treasury statement is wonderfully encouraging.

The war budget for the year was \$229,010,000 for the army and \$64,734,169 for the navy, or a total of \$293,744,169. Although the war began in April, 1898, the heavy expenses for the army did not begin to appear on the treasury books until the present fiscal year began July 1, so there is an increase in the budget of \$142,955,107.

Taking the fiscal year ending June 30, 1897, as a peace basis, the expenses of the army and navy were only \$83,511,814, so that at the same rate the extraordinary war expenses of the last two years have been \$277,510,797, which may be taken as the actual cost of the war up to date.

The pensions still being paid on account of the war of the rebellion would have footed the bill for the difficulty with Spain day by day.

to the coffee drinker. Coffee drinking is a habit that is universally indulged in and almost as universally injurious. Have you tried Grain-O? It is almost like coffee, but the effects are just the opposite. Coffee upsets the stomach and disturbs the digestion, affects the heart and disturbs the whole nervous system. Grain-O tones up the stomach, aids digestion and strengthens the nerves. There is nothing but nourishment in Grain-O. It can't be otherwise, for it is made of pure grains.

FIVE GOOD TINNERS busy on tinwork and ready for your order.

Every girl in Janesville is interested. There are Vici Kid Slippers here today for her doll. Let her bring the doll, big or little, and we will give her the slippers or have them made to order for her if the doll's feet are so big or odd that we cannot fit them out of stock.

## THIS IS DOLL'S DAY

and we want to give away so many that every girl hereabout will know what a perfect shoe leather this Vici Kid is, how soft to the touch and yet how firm and durable. We want her to see, too, what a perfect polish it takes. We want her to see the horse-shoe trade mark that stamps all of the Vici products.

These little girls will soon be the grown up women and the shoe buyers, and it is to prove to them how Vici Kid is the best of all kid that goes into shoes that we give away these handsome slippers. Remember Mr. Robert H. Foerderer alone make Vici Kid. No one else knows how to make it. They try and try, but Vici stands today as when it first appeared, unequalled, almost unapproached.

Today, as every day this week, we are teaching shoe care and the merits of Vici Dressing, Polish, etc., preparations also made by Robert H. Foerderer, who says no matter how good a leather or shoe may be, if neglected in wear half its wearing qualities are lost. The lesson we teach is worth learning.
